Independent Auditors' Report

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Castle Pines North Metropolitan District (the "District"), as of and for the year ended December 31, 2014, which collectively comprise the District's basic financial statements as listed in the table of contents, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the District's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting principles used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above and the required supplemental information present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Castle Pines North Metropolitan District as of December 31, 2014, and the respective changes in financial position, and, where applicable, cash flows thereof and the respective budgetary comparisons for the General Fund and the Special Revenue Fund for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other-Matters

Required Supplemental Information

Management has omitted the management's discussion and analysis that accounting principles generally accepted in the United States of America require to be presented to supplement the basic financial statements. Such missing information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. Our opinions on the basic financial statements are not affected by this missing information.

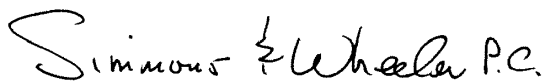

Accounting principles generally accepted in the United States of America require that the budgetary comparison information on pages 35 and 36 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. The required supplemental information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Castle Pines North Metropolitan District's basic financial statements. The supplemental information, as listed in the table of contents, is presented for purposes of additional analysis and is not a required part of the basic financial statements.

The supplemental information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the supplemental information is fairly stated, in all material respects, in relation to the basic financial statements.

The continuing disclosure of annual financial information, as listed in the table of contents, has not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on it.

RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES AND CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES

For the Year Ended December 31, 2014

With Comparative Totals for the Year Ended December 31, 2013

	2014	2013
Amounts reported for governmental activities in the Statement of Activities are different because:		
Net change in fund balances - Total governmental funds	\$ 1,880,468	\$ 1,745,605
Governmental funds report capital outlays as expenditures. In the Statement of Activities capital outlays are not reported as expenditures. However, the Statement of Activities will report as depreciation expense the allocation of the cost of any depreciable asset over the estimated useful lives of the asset.		
Depreciation expense	(252,426)	(254,223)
Retirement of assets	(14,380)	-
The issuance of long-term debt (e.g., bonds, Certificates of Participation) provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net position. Also, governmental funds report the effect of bond premiums, discounts and similar items when debt is first issued, whereas these amounts are deferred and amortized in the Statement of Activities.		
Bonds - cost of refunding amortization	(96,050)	(110,593)
Bonds - premium amortization	14,039	15,177
Bonds - principal payments	1,225,000	1,175,000
Certificates of Participation - principal payments	635,000	610,000
Some expenses in the Statement of Activities do not require the use of current financial resources and, therefore, are not reported as expenditures in governmental funds.		
Accrued interest on bonds payable	4,839	7,404
Change in Net Position of Governmental Activities	\$ 3,396,490	\$ 3,188,370

Notes to Financial Statements December 31, 2014

Note 1: Summary of Significant Accounting Policies

The accounting policies of the Castle Pines North Metropolitan District (“District”), located in Douglas County, Colorado, conform to the accounting principles generally accepted in the United States of America (“GAAP”) as applicable to governmental units. The Governmental Accounting Standards Board (“GASB”) is the accepted standard setting body for establishing governmental accounting and financial reporting principles. The following is a summary of the more significant policies consistently applied in the preparation of these financial statements.

Definition of Reporting Entity

The District was established as a quasi-municipal corporation and political subdivision of the State of Colorado under the Special District Act (Title 32, Article 1, Colorado Revised Statutes). The District was organized by a court order on June 11, 1984, and is governed by an elected five member Board of Directors (“Board”). The District was established to provide water service, wastewater service, storm drainage service and parks and open space services for the benefit of the property owners, residents and users of the facilities of the District.

These financial statements present the activities of the District, which is legally separate and financially independent of other state and local governments. The District follows GASB pronouncements, which provide guidance for determining which governmental activities, organizations and functions should be included within the financial reporting entity. GASB sets forth the financial accountability of a governmental organization’s elected governing body as the basic criterion for including a possible component governmental organization in a primary government’s legal entity. Financial accountability includes, but is not limited to, appointment of a voting majority of the organization’s governing body, ability to impose its will on the organization, a potential for the organization to provide specific financial benefits or burdens and fiscal dependency. The pronouncements also require including a possible component unit if it would be misleading to exclude it.

The District is financially accountable for the Castle Pines North Finance Corporation (“Corporation”), which is a Colorado non-profit corporation formed in January 2008 for the purpose of financing, constructing, equipping, owning, leasing and operating real and personal property to be leased by the District for water supply, water storage, water treatment or water distribution pursuant to a lease and other agreements with the District. The Corporation is being presented as a special revenue fund of the District in order to separate its activities from the General Fund. The purpose of the Corporation is to provide an exclusive benefit to, and is intertwined with, the District.

The District has employees for operations, management and administrative functions. Other functions are contracted.

CASTLE PINES NORTH METROPOLITAN DISTRICT

Notes to Financial Statements December 31, 2014

Basis of Presentation

The government-wide financial statements (i.e. the Statement of Net Position and the Statement of Activities) report information on all of the nonfiduciary activities of the District. For the most part, the effect of interfund activity has been removed from these statements. *Governmental activities*, which normally are supported by taxes and intergovernmental revenues, are reported separately from *business-type activities*, which rely to a significant extent on fees and charges for support.

The Statement of Net Position reports all financial and capital resources of the District. The difference between the assets and deferred outflows of resources and the liabilities and deferred inflows of resources of the District is reported as Net Position.

The Statement of Activities demonstrates the degree to which the direct and indirect expenses of a given function or segment are offset by program revenues. *Direct expenses* are those that are clearly identifiable with a specific function or segment. *Program revenues* include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not included among program revenues are reported instead as *general revenues*.

Separate financial statements are provided for governmental funds and proprietary funds. Major individual governmental funds and major individual proprietary funds are reported as separate columns in the fund financial statements.

Measurement Focus, Basis of Accounting and Financial Statement Presentation

The government-wide financial statements are reported using the *economic resources measurement focus* and the *accrual basis of accounting*, as are the proprietary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of the related cash flows. Property taxes are recognized as revenues in the year in which they are collected.

Governmental fund financial statements are reported using the *current financial resources measurement focus* and the *modified accrual basis of accounting*. Revenues are recognized as soon as they become both measurable and available. Revenues are considered to be *available* when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the District considers revenues to be available if they are collected within 60 days of the end of the current fiscal year. The material sources of revenue subject to accrual are property taxes and interest. Expenditures are recorded when the liability is incurred or the long-term obligation is paid.

CASTLE PINES NORTH METROPOLITAN DISTRICT

Notes to Financial Statements December 31, 2014

The District reports the following major governmental funds:

General Fund: The General Fund is the general operating fund of the District. It is used to account for all financial resources not accounted for and reported in another fund.

Special Revenue Fund – Finance Corporation: The Special Revenue Fund – Finance Corporation is used to account for all revenues that are restricted, committed or assigned to expenditures related to the Castle Pines North Finance Corporation.

Debt Service Fund: The Debt Service Fund is used to account for all financial resources that are restricted, committed or assigned to expenditures for principal, interest and other debt-related costs.

The District reports the following major proprietary funds:

Water Enterprise Fund: The Water Enterprise Fund accounts for the water operations that are financed and operated in a manner similar to private business enterprises, where the intent is that the costs of providing goods or services to the general public on a continuing basis be financed or recovered primarily through user charges.

Wastewater Enterprise Fund: The Wastewater Enterprise Fund accounts for the wastewater operations that are financed and operated in a manner similar to private business enterprises, where the intent is that the costs of providing goods or services to the general public on a continuing basis be financed or recovered primarily through user charges.

Storm Drainage Enterprise Fund: The Storm Drainage Enterprise Fund accounts for the storm drainage operations that are financed and operated in a manner similar to private business enterprises, where the intent is that the costs of providing goods or services to the general public on a continuing basis be financed or recovered primarily through user charges.

Proprietary funds distinguish operating revenues and expenses from non-operating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with the proprietary fund's ongoing operations. Operating revenues consist of charges to customers for services provided. Operating expenses for proprietary funds include the cost of services, administrative expenses, and depreciation of assets. All revenues and expenses not meeting these definitions are reported as non-operating revenues and expenses or capital contributions.

CASTLE PINES NORTH METROPOLITAN DISTRICT

Notes to Financial Statements December 31, 2014

Budgets

The District follows the following procedures in establishing the budgetary data reflected in the financial statements:

- By October 15, the District Manager submits to the Board, a proposed operating budget for the fiscal year beginning the following January 1. The operating budget includes proposed expenditures and the means of financing them.
- A public hearing is conducted to obtain taxpayer comments.
- Prior to December 15, the budget is formally adopted through passage of a Board resolution and monies are appropriated by fund.
- Any budget revisions that alter the total expenditures of any fund must be approved by the Board through passage of a budget amendment.
- The District appropriates revenues and expenditures by fund as part of the budget approval process. Budgets for the General and Debt Service Funds are adopted on a basis consistent with GAAP. Budgetary comparisons presented for the Enterprise Fund are presented on a non-GAAP budgetary basis.
- Budgeted amounts in the financial statements are reported as originally adopted or as amended by the Board. All appropriations lapse at year end.

Statement of Cash Flows

For purposes of the Statement of Cash Flows, the District considers cash deposits with an original maturity of three months or less to be cash equivalents.

Assets, Liabilities, and Net Position

Fair Value of Financial Instruments

The District's financial instruments include cash and cash equivalents, accounts receivable and accounts payable. The District estimates that the fair value of all financial instruments as of December 31, 2014 does not differ materially from the aggregate carrying values of its financial instruments recorded in the accompanying financial statements. The carrying amount of these financial instruments approximates fair value because of the short maturity of the instruments.

Cash and Cash Equivalents

The District's cash and cash equivalents are considered to be cash on hand and short-term investments with maturities of three months or less from the date of acquisition. The District's investments are reported at fair value.

CASTLE PINES NORTH METROPOLITAN DISTRICT

Notes to Financial Statements December 31, 2014

The District follows the practice of pooling cash and investments from all funds to maximize investment earnings. Except when required by trust or other agreements, all cash is deposited to and disbursed from a minimum number of bank accounts. Cash in excess of immediate operating requirements is pooled for deposit and investment flexibility. Investment earnings are allocated periodically to the participating funds based upon each funds' average equity balance in the total cash and investments.

Allowance for Doubtful Accounts

Tap fees, user fees and similar fees set by the District's Board constitute a perpetual lien on or against the property served until paid. Such liens may be foreclosed upon as provided by the State of Colorado. Therefore, no provision for uncollectible receivables, except as listed below for property taxes, has been made in the financial statements.

Property Tax

Property taxes are certified by the District's Board. The levy is based on assessed valuations determined by the Douglas County Assessor generally as of January 1 of each year. The levy is certified by December 15 to the County Commissioners to put the tax lien on the individual properties as of January 1 of the following year. The County Treasurer collects the determined taxes during the ensuing calendar year. The taxes are payable by April or in equal installments, at the taxpayers' election, in February and June. Delinquent taxpayers are notified in July or August and the sales of the resultant tax liens on delinquent properties are generally held in November or December. The County Treasurer remits taxes collected monthly to the District.

Property taxes, net of estimated uncollectible taxes, are recorded initially as deferred inflows in the year they are levied and measurable since they are not normally available, nor are they budgeted as a resource, until the subsequent year. The deferred property taxes are recorded as revenue in the subsequent year when they are available or collected.

Deferred Outflows/Inflows of Resources

In addition to assets, the Statement of Net Position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, *deferred outflows of resources*, represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until then. The District only has one item that qualifies for reporting in this category. It is the deferred loss on refunding reported in the government-wide statement of net position. A deferred loss on refunding results from the difference in the carrying value of refunded debt and its reacquisition price. This amount is deferred and amortized over the shorter of the life of the refunded or refunding debt.

CASTLE PINES NORTH METROPOLITAN DISTRICT

Notes to Financial Statements December 31, 2014

In addition to liabilities, the Statement of Net Position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, *deferred inflows of resources*, represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. The District has only one type of item that qualifies for reporting in this category. Deferred property taxes are recognized as an inflow of resources in the period that the amounts become available.

Estimates

The preparation of these financial statements in conformity with GAAP requires the District's management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Capital Assets

Capital assets, which include property, equipment and infrastructure assets are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. Capital assets are defined by the District as assets with an initial, individual cost of more than \$5,000 and an estimated useful life in excess of one year. Such assets are recorded at historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair value at the date of the donation.

The costs of normal maintenance and repairs that do not add to the value of capital assets or materially extend the life of capital assets are not capitalized. Improvements are capitalized and depreciated over the remaining useful lives of the related fixed assets, as applicable using the straight-line method. Depreciation is reported on the Statement of Activities as a current charge. Improvements classified as construction-in-progress are not depreciated. Land and certain landscaping improvements are not depreciated.

Property, plant and equipment are depreciated using the straight-line method over the following estimated useful lives:

Distribution system	50 - 100 years
Collection system	50 - 100 years
Buildings	25 - 60 years
Trails	12 - 30 years
Machinery and equipment	5 - 25 years
Parking lots	15 years
Irrigation systems	30 years
Office furniture and equipment	5 years

CASTLE PINES NORTH METROPOLITAN DISTRICT

Compensated Absences

The District allows employees to accumulate unused personal leave time. As of December 31, 2014, the accrued personal leave totals \$32,592. That amount is included as liabilities in the General Fund and the Proprietary Funds.

Long-Term Obligations

In the government-wide financial statements, and in the enterprise fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or enterprise fund type Statement of Net Position. Bonds payable are reported net of applicable bond premium, discount and cost of refunding.

Bond Cost of Refunding and Bond Premiums – Series 2006 Bonds

Bond premiums and the costs of refunding from the Series 2006 Bonds are being amortized over the respective terms of the bonds using the interest method. As of December 31, 2014, the accumulated amortization of the bond premiums is \$153,402 and the accumulated amortization of the costs of refunding is \$2,278,057.

Fund Balance and Net Position

Fund Balances

Fund balance of governmental funds is reported in various categories based on the nature of any limitations requiring the use of resources for specific purposes. Because circumstances differ among governments, not every government or every governmental fund will present all of these components. The following classifications make the nature and extent of the constraints placed on a government's fund balance more transparent:

Non-spendable – amounts that cannot be spent either because they are in non-spendable form or because they are legally or contractually required to be maintained intact.

Restricted – amounts that can be spent only for specific purposes because of constitutional provisions, charter requirements or enabling legislation, or because of constraints that are externally imposed by creditors, grantors, or laws or regulations of other governmental entities.

Committed – amounts that can be used only for specific purposes determined by a formal action of the Board. The Board is the highest level of decision making authority for the District. Committed fund balances may be established, modified, or rescinded only through resolutions approved by the Board.

CASTLE PINES NORTH METROPOLITAN DISTRICT

Notes to Financial Statements December 31, 2014

Assigned – amounts that do not meet the criteria to be classified as restricted or committed but are intended to be used for specific purposes. Under the Board's adopted policy, the Board has the authority to assign the designated fund balance for each governmental fund based on the intended use of resources by the District in the most recently adopted budget.

Unassigned – all other spendable amounts.

For the classification of Governmental Fund balances, the District considers an expenditure to be made from the most restrictive first when more than one classification is available.

Net Position

Net Position represents the difference between assets and deferred outflows of resources less liabilities and deferred inflows of resources. The District reports three categories of net position, as follows:

Net investment in capital assets – consists of net capital assets, except for construction in progress, reduced by outstanding balances of any related debt obligations and deferred inflows of resources attributable to the acquisition, construction, or improvement of those assets and increased by balances of deferred outflows or resources related to those assets.

Restricted net position – considered restricted if their use is constrained to a particular purpose. Restrictions are imposed by external organizations such as federal or state laws. Restricted net position is reduced by liabilities and deferred inflows of resources related to the restricted assets.

Unrestricted net position – consists of all other net position that does not meet the definition of the above two components and is available for general use by the District.

When an expense is incurred for purposes for which both restricted and unrestricted net position are available, the District will use the most restrictive net position first.

Comparative Data

Comparative total data for the prior year is presented in the accompanying financial statements in order to provide an understanding of changes in the District's financial position and operations. For presentation purposes only, comparative total data for the prior year may have been reclassified.

Custodial Credit Risk - Deposits

Custodial Credit Risk is the risk that in the event of failure of a depository financial institution, the District's deposits may not be returned to it. The Colorado Public Deposit Protection Act ("PDPA") requires that all units of local government deposit cash in eligible public depositories. Eligibility is determined by state regulations. Amounts on deposit in excess of federal insurance levels must be collateralized by eligible collateral as determined by the PDPA. PDPA allows the financial institution to create a single collateral pool for all public funds. The pool is to be maintained by another institution or held in trust for all the uninsured public deposits as a group. The market value of the collateral must be at least equal to 102% of the uninsured deposits. The State Commissions for banks and financial services are required by statute to monitor the naming of eligible depositories and reporting of the uninsured deposits and assets maintained in the collateral pools.

As of December 31, 2014, the District's cash deposits had a bank balance of \$2,578,669 that was either federally insured or collateralized by PDPA.

Investments

Credit risk

The District has a formal investment policy which follows Colorado Revised Statutes (“CRS”), which specify in which investments local governments may invest. These investments include obligations of the United States and certain U.S. government agency entities, certain money market funds, guaranteed investment contracts, and local government investment pools.

Custodial and Concentration of Credit Risk

Due to the limitations specified by CRS, the District’s investments are not subject to concentration risk disclosure requirements or subject to investment custodial credit risk.

Interest Rate Risk

CRS limit investment maturities to five years or less, unless otherwise formally approved by the Board.

Federated Treasury Obligations Fund

During 2014, the District’s funds in the trust accounts at UMB were invested in the Federated Treasury Obligations Fund (“Federated Fund”). This portfolio is a money market fund that invests in U.S. Treasury obligations, which are fully guaranteed as to principal and interest by the U.S. Government, with maturities of 13 months or less and repurchase agreements collateralized by U.S. Treasury obligations. The Federated Fund is rated AAAM by Standard & Poor’s. As of December 31, 2014, the District had \$23 invested in the Federated Treasury Obligations Fund.

COLOTRUST

The local government investment pool, Colorado Local Government Liquid Asset Trust (“COLOTRUST”) is rated AAAM by Standard and Poor’s and the maturity is a weighted average under 60 days. COLOTRUST is an investment trust/joint venture established for local governmental entities in Colorado to pool surplus funds. COLOTRUST operates similarly to a money market fund with each share maintaining a value of \$1.00. COLOTRUST offers shares in two portfolios, COLOTRUST PRIME and COLOTRUST PLUS+. Both portfolios consist of U.S. Treasury bills and notes and repurchase agreements collateralized by U.S. Treasury securities. COLOTRUST PLUS+ may also invest in certain obligations of U.S. government agencies, highest-rated commercial paper or repurchase agreements collateralized by certain obligations of U.S. Government agencies. Designated custodian banks provide safekeeping and depository services to the trusts. Substantially all securities owned by COLOTRUST are held by the Federal Reserve Bank in accounts maintained for the custodian banks. The custodians' internal records identify the investments owned by COLOTRUST. As of December 31, 2014, the District had \$11,571,615 invested in COLOTRUST PLUS+.

CASTLE PINES NORTH METROPOLITAN DISTRICT

Notes to Financial Statements December 31, 2014

A description of the long-term debt as of December 31, 2014, is as follows:

\$14,310,000 Limited Tax General Obligation Refunding Bonds – Series 2006A

In May 2006, the District issued \$14,310,000 of Limited Tax General Obligation Refunding Bonds, Series 2006A (“Series 2006A Bonds”). The proceeds were used to advance refund the District’s Limited Tax General Obligation Refunding Bonds, Series 2003, and the Limited Tax General Obligation Refunding Bonds, Series 2004, and to pay for the costs of issuance. The refunding resulted in the reduction of the District’s total debt service payments by approximately \$11,142,344 and provided an economic gain of approximately \$21,881. A restriction on tap fees, as pledged for debt service, was also removed. The defeased bonds are not considered a liability of the District since sufficient funds were deposited with a trustee and invested in U.S. Government securities for the purpose of paying the principal and interest of the defeased bonds when due.

The Series 2006A Bonds bear interest at rates ranging from 4.00% to 4.50% and are comprised of serial bonds maturing from 2006 through 2015 and term bonds due in 2018. The Series 2006A Bonds maturing on or after December 1, 2016 are subject to redemption prior to maturity, at the option of the District, as a whole or in integral multiples of \$5,000, in any order of maturity, on December 15, 2015, and on any date thereafter, upon payment of par and accrued interest, without redemption premium. The Series 2006A Bonds maturing on December 1, 2018 are also subject to mandatory sinking fund redemption prior to the maturity date of the bonds, in part, by lot, on December 1 of each year in 2016, 2017 and 2018.

The Series 2006A Bonds are payable from the revenue derived from the imposition of an ad valorem mill levy imposed upon all taxable property of the District each year in an amount sufficient to pay the principal of, premium if any, and interest on the bonds when due, but not exceeding a maximum mill levy. The lien of the Series 2006A Bonds on such ad valorem property tax revenue will be on parity with the lien of the District’s Limited Tax General Obligation Refunding Bonds, Series 2006B.

The District received a premium from the issuance of the Series 2006A Bonds in the amount of \$89,901 and incurred costs of issuance totaling \$121,366. The Series 2006A Bonds exceeded the book value of the defeased bonds by \$1,149,514. These amounts are being amortized over the life of the Series 2006A Bonds.

\$5,700,000 Limited Tax General Obligation Refunding Bonds – Series 2006B

In May 2006, the District issued \$5,700,000 of Limited Tax General Obligation Refunding Bonds, Series 2006B (“Series 2006B Bonds”). The proceeds were used to refund a portion the District’s Limited Tax General Obligation Variable Rate Refunding Bonds, Series 1999 (“Series 1999 Bonds”), and to pay for the costs of issuance. The defeased bonds are not considered a liability of the District since sufficient funds were deposited with a trustee and invested in U.S. Government securities for the purpose of paying the principal and interest of the defeased bonds when due.

The Series 2006B Bonds bear interest at rates ranging from 4.50% to 5.00% and are comprised of bonds maturing in 2024, 2025, 2026 and 2027. The Series 2006B Bonds maturing on or after December 1, 2024 are subject to redemption prior to maturity, at the option of the District, as a whole or in integral multiples of \$5,000, in any order of maturity, on December 15, 2015, and on any date thereafter, upon payment of par and accrued interest, without redemption premium.

The District received a premium from the issuance of the Series 2006B Bonds in the amount of \$175,438 and incurred costs of issuance totaling \$66,817. The Series 2006B Bonds exceeded the book value of the refunded bonds by \$533,228. This amount is being amortized over the life of the Series 2006B Bonds.

\$8,585,000 Variable Rate Certificates of Participation – Series 2008

On August 28, 2008, the Corporation issued \$8,585,000 in Variable Rate Certificates of Participation (“2008 Certificates”) evidencing proportionate and undivided interests in the right to receive certain revenues payable by the District under a Lease Agreement dated August 1, 2008, as amended on May 1, 2009 (“Lease Agreement”) for the 2009 Certificates. Pursuant to the Lease Agreement, the District is obligated to pay Base Rental (assuming the District does not exercise its annual option to terminate the Lease Agreement) during the lease term to the trustee as the Corporation’s assignee and mortgage pursuant to an indenture. Base Rental represents monies required to pay the principal and interest on the 2008 Certificates when due, and any related fees for remarketing, letter of credit facility and trustee.

The 2008 Certificates bear interest in the Weekly mode at a rate determined each Wednesday by the remarketing agent, to be effective from and including each Thursday to and including the following Wednesday. The maximum interest rate on the 2008 Certificates is the lesser of: (i) the maximum rate permitted by law for the 2008 Certificates, or (ii) 10% per annum. Interest, while in the Weekly mode, is payable on the first business day of each calendar month following a month in which interest at such rate has accrued, commencing October 1, 2008.

The 2008 Certificates maturing on December 1, 2033, are subject to annual mandatory redemption beginning December 1, 2009. Any of the 2008 Certificates, while in a Variable Rate Mode, at the option of the District, are subject to redemption at a price equal to the principal amount plus accrued interest to the redemption date, without redemption premium.

The 2008 Certificates are secured by, and initially payable from, an irrevocable direct letter of credit issued by Wells Fargo Bank N.A., initially expiring on August 28, 2013, unless renewed, substituted or terminated. On July 17, 2013, the letter of credit term was renewed with a new expiration date of August 28, 2018. The annual facility fee was increased to 1.35%.

Proceeds from the sale of the 2008 Certificates were used to: (i) acquire the right to store a volume of water in the Reuter-Hess Reservoir, including the right to deliver water into, store water within and withdraw water from the Reuter-Hess Reservoir (see Note 6); and, (ii) pay certain costs related to the issuance of the 2008 Certificates.

Note 6: District Agreements

Hidden Pointe Metropolitan District (formerly Green Valley Water and Sanitation District)

On June 2, 1994, the District entered into an amended service agreement and an agreement regarding mill levies with the Green Valley Water and Sanitation District. The agreements provide for the District to provide water and wastewater service for up to 216 single family equivalents to the property known as the Green Valley Subdivision. 216 Valley Group, LP or its successors are required to: (i) assess additional tap fees of \$2,000 per single family equivalent through 2002 and \$2,500 thereafter payable to the District, (ii) construct all required water and wastewater mains in the property and to the District boundary, and convey such improvements to the District, (iii) impose a service charge for water and wastewater at 125% of the charges imposed by the District, and (iv) impose a mill levy of up to 51.5 mills or the actual mill levy (22 mills) assessed for debt that existed at the time of the agreement. The resulting net revenues are to be remitted to the District until the longer of (a) 30 years from initiation of payments (until 2025), or (b) 20 years from first refinancing (2016). The agreement also provided for a decrease of 10 mills beginning in collection year 2014. The District received \$119,425 in 2014 for debt service related to this agreement.

Castle Pines North Golf Company

The District entered into an agreement with the Castle Pines North Golf Company (“Golf Club”) on February 2, 1996, to provide and/or treat effluent for irrigation use by the Golf Club for twenty years. The Golf Club is entitled to a maximum use of 325 acre feet of water per year, at a rate of 750,000 gallons per day for the first two years from the date of the commencement without any charge. After the second anniversary of the commencement of irrigation, the Golf Club is entitled to 240 acre feet per year provided the daily maximum shall remain the same. The District received certain improvements to its systems as compensation for this agreement. The revenue related to these improvements is recognized equally over the twenty years of the agreement. During 2014, the District recorded \$35,812 of revenue related to the agreement and has \$35,795 remaining to recognize as of December 31, 2014.

Plum Creek Water Reclamation Authority

The District, along with the Castle Pines Metropolitan District and the Town of Castle Rock, has its wastewater treated by the Plum Creek Water Reclamation Authority (“PCWRA”). The District has contributed \$3,496,437 for treatment capacity improvements in previous years and owns capacity in the PCWRA Plant. During 2014, the PCWRA charged the District \$648,803 for treatment of the District’s wastewater.

Reuter-Hess Reservoir Water Storage Space Intergovernmental Agreement

On August 26, 2008, the District, the Town of Castle Rock (“Town”), and Stonegate Village Metropolitan District (“Stonegate”) entered into an agreement known as the Reuter-Hess Reservoir Water Storage Space Intergovernmental Agreement (“IGA”) with Parker Water and Sanitation (“Parker Water”). Parker Water owns land on which it has constructed a 16,200 acre feet reservoir known as the Reuter-Hess Reservoir (“Reservoir”) located in Douglas County, Colorado. During the calendar year 2008, Parker Water received a favorable Record of Decision from the Army Corp of Engineers to expand Reuter-Hess from 16,200 acre feet to nearly 72,000 acre feet.

Pursuant to the IGA, Parker Water may sell, transfer or convey a storage easement to the participating entities. The storage easement constitutes rights in real property which shall entitle each participating entity the right to store a specific volume of water in the Reservoir, including the right to deliver into, store within and withdraw from the Reservoir volumes of water on the terms and conditions set forth in the participating entity’s respective storage easement deed, the IGA and their operations plan. The District purchased 1,500 acre-feet of reservoir storage capacity for \$8,318,153. The storage easement acquired by the District during 2008 is within the original 16,200 acre-foot Reservoir.

Notes to Financial Statements December 31, 2014

Also pursuant to the IGA, Parker Water will establish an outlet structures escrow in the amount of \$7,800,000 for the benefit of the participating entities for the construction of two outlet facilities which will enable the Reservoir to operate as designed. Additionally, the IGA requires Parker Water to (i) expand the Reservoir in accordance with applicable permits, and (ii) enlarge the Reservoir's outlet pipe to accommodate the participating entities individual outlet capacities. Parker Water completed the expansion of the Reservoir, including the construction of the outlet structures, in January 2012, within the timeframe allowed in the IGA.

Hock Hocking Water Rights

In March 2010, the District closed a Purchase and Sale Agreement with the Mount Carbon Metropolitan District ("Mount Carbon") for the purchase of shares of Hock Hocking Mine water rights for \$7,011,000. Under the agreement, the District paid \$1,428,000 directly to Mount Carbon, who then paid Aggregate Industries in connection with Mount Carbon's purchase of 102 water taps. The District has a security interest in those taps.

Note 7: Employee Pension and Healthcare Benefit Plans

Defined Benefit Pension Plan

The District contributes to the Municipal Division Trust Fund ("MDTF"), a cost-sharing multiple-employer defined benefit pension plan administered by the Public Employees' Retirement Association of Colorado ("PERA"). The MDTF provides retirement and disability, annual increases, and death benefits for members and their beneficiaries. All employees of the District are members of the MDTF. Plan members and the District are required to contribute to the MDTF at a rate set by Colorado State Statute. The contribution requirements of plan members and the District are established under Title 24, Article 51 of the CRS, as amended. The contribution rate for members and the District is 8.0% and 13.7%, respectively, of covered salary. A portion of the District's contribution (1.02% of covered salary) is allocated for the Health Care Trust Fund.

Postemployment Healthcare Benefits

The District contributes to the Health Care Trust Fund ("HCTF"), a cost-sharing multiple-employer postemployment healthcare plan administered by PERA. The HCTF provides a health care premium subsidy to PERA participating benefit recipients and their eligible beneficiaries. The District is required to contribute at a rate of 1.02% of covered salary for all PERA members as set by Colorado State Statute. No member contributions are required.

The District's contributions to MDTF and HCTF for the years ended December 31, 2013 and 2014 were \$65,546 and \$81,344, respectively, equal to the required contribution for each year.

CASTLE PINES NORTH METROPOLITAN DISTRICT

Notes to Financial Statements December 31, 2014

Defined Contribution Pension Plan

The MDTF members of the District may voluntarily contribute to the Voluntary Investment Program (“401(k) Plan”), an Internal Revenue Code Section 401(k) defined contribution plan administered by PERA. Plan participation is voluntary, and contributions are separate from other payments made to PERA.

The 401(k) Plan is funded by voluntary member contributions up to a maximum limit set annually by the IRS. The contribution requirements for the District are established under Title 24, Article 51, Section 1402 of the CRS, as amended. The 401(k) Plan member contributions from the District for the years ended December 31, 2013 and 2014 were \$10,466 and \$15,372, respectively.

Basis of Accounting for the MDTF and HCTF

The financial statements of the MDTF and HCTF are prepared using the accrual basis of accounting. Member and employer contributions are recognized as revenues in the period in which the employer pays compensation to the members and the employer is statutorily committed to pay these contributions. Benefits and refunds are recognized when due and payable in accordance with the terms of each plan. The MDTF plan and HCTF plan investments are presented at fair value, except for short-term investments, which are recorded at cost.

Title 24, Article 51 of the CRS, as amended, assigns the authority to establish benefit provisions to the Colorado State Legislature. PERA issues a publicly available annual financial report that includes financial statements and required supplementary information for the MDTF and the HCTF. That report may be obtained by writing to Colorado PERA, 1300 Logan Street, Denver, CO 80203, or by calling PERA at 303-832-9550 or 1-800-759-PERA.

Note 8: TABOR Amendment

Colorado voters passed an amendment to the State Constitution, Article X, Section 20 (“Amendment”), commonly known as the Taxpayer Bill of Rights (“TABOR”), which has several limitations, including revenue raising, spending abilities, and other specific requirements of state and local government. The Amendment is complex and subject to judicial interpretation. The District believes it is in compliance with the requirements of the Amendment.

The District established an Emergency Reserve, representing 3% of fiscal year spending (excluding debt service), as required by the Amendment. At December 31, 2014, the Emergency Reserve of \$88,000 was recorded in the General Fund.

Note 9: Risk Management

Except as provided in the Colorado Governmental Immunity Act, 24-10-101, et seq., CRS, the District may be exposed to various risks of loss related to torts, theft of, damage to, or destruction of assets; errors or omissions; injuries to agents; and natural disasters. The District has elected to participate in the Colorado Special Districts Property and Liability Pool (“Pool”) which is an organization created by intergovernmental agreement to provide common liability and casualty insurance coverage to its members at a cost that is considered economically appropriate. Settled claims have not exceeded this commercial coverage in any of the past three fiscal years.

The District pays annual premiums to the Pool for auto, public officials’ liability, and property and general liability coverage. In the event aggregated losses incurred by the Pool exceed amounts recoverable from reinsurance contracts and its accumulated reserves, the District may be called upon to make additional contributions to the Pool on a basis proportionate to other members. Any excess funds which the Pool determines are not needed for purposes of the Pool may be returned to the members pursuant to a distribution formula.

Note 10: Interfund Transfers

During 2014, the District transferred \$1,001,719 from the General Fund to the Finance Corporation Special Revenue Fund to provide funds for the debt service expenditures related to the 2008 and 2009 Certificates of Participation. This transfer of funds is reflected as Base Rental Income and Expense.

Note 11: Subsequent Events

\$21,895,000 Refunding Certificates of Participation, Series 2015

On March 12, 2015, the District issued \$21,895,000 of Refunding Certificates of Participation, Series 2015 (“2015 Certificates”) for the purpose of refunding the lease-purchase obligations of the District related to the 2008 Certificates and the 2009 Certificates which were financed through the Castle Pines North Finance Corporation.

The 2015 Certificates were issued evidencing proportionate and undivided interests in the right to receive certain revenues payable by the District under a Lease Agreement dated March 12, 2015. Pursuant to the Lease Agreement, the District is obligated to pay Base Rental during the lease term to the trustee lessor UMB Bank, N.A. (“UMB”). Base Rental represents monies required to pay the principal and interest on the 2015 Certificates when due, and any related fees.

The District issued the 2015 Certificates due to a desire to eliminate interest rate risk associated with the variable rate 2008 and 2009 Certificates. Due to the District’s strong credit rating and the low interest rate market, it was able to achieve low fixed interest rates on the refunding. The refunding is expected to have no impact on the 2015 General Fund Budget.
