

CASTLE PINES NORTH

METROPOLITAN DISTRICT

2020 REVENUE CLASS

COMMERCIAL COMBINED INDOOR & OUTDOOR WASTEWATER RATES

DEFINITION: Includes commercial meters that provide for both indoor and outdoor needs within Castle Pines North Metro District boundaries.

Average Winter Monthly Consumption (AWC) shall be computed for each account by dividing the total potable water consumption billed to the account for the months of December, January, and February, by three. AWC will be calculated in March of each year and will be used as the monthly wastewater flow until the following recalculation.

For accounts with zero water consumption during December, January, and February, the account will be assigned the average AWC calculated for its revenue class or the previous year's AWC, whichever is less.

RATES

Wastewater Flow, Per 1,000 Gallons of AWC, Per Month

All Meter Sizes \$6.72

Customer Charge, Per Meter, Per Month

All Meter Sizes \$13.85
